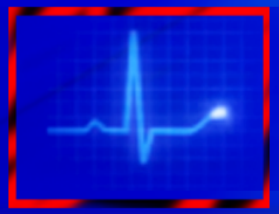
HEALTH



If the zombie grabs you, your life will slowly decrease from GOOD to HURT.
Your heart beat monitor will show your status.
If the monitor turns red, you will need to find HEALTH BOTTLES to replenish your life.
As standart you will always have 2 lives.
Your life is represented by this icon:
If you die twice, the game will reload from the last checkpoint, the enemies will also respawn.

The magazines are displayed above the bullets.
You will find magazines as you investigate the level.
Zombies sometimes drop bullets as well.

TIP: If you're out of bullets, press "1" and with the Melee Attack you can use your knife.

BULLETS AND MAGAZINES
