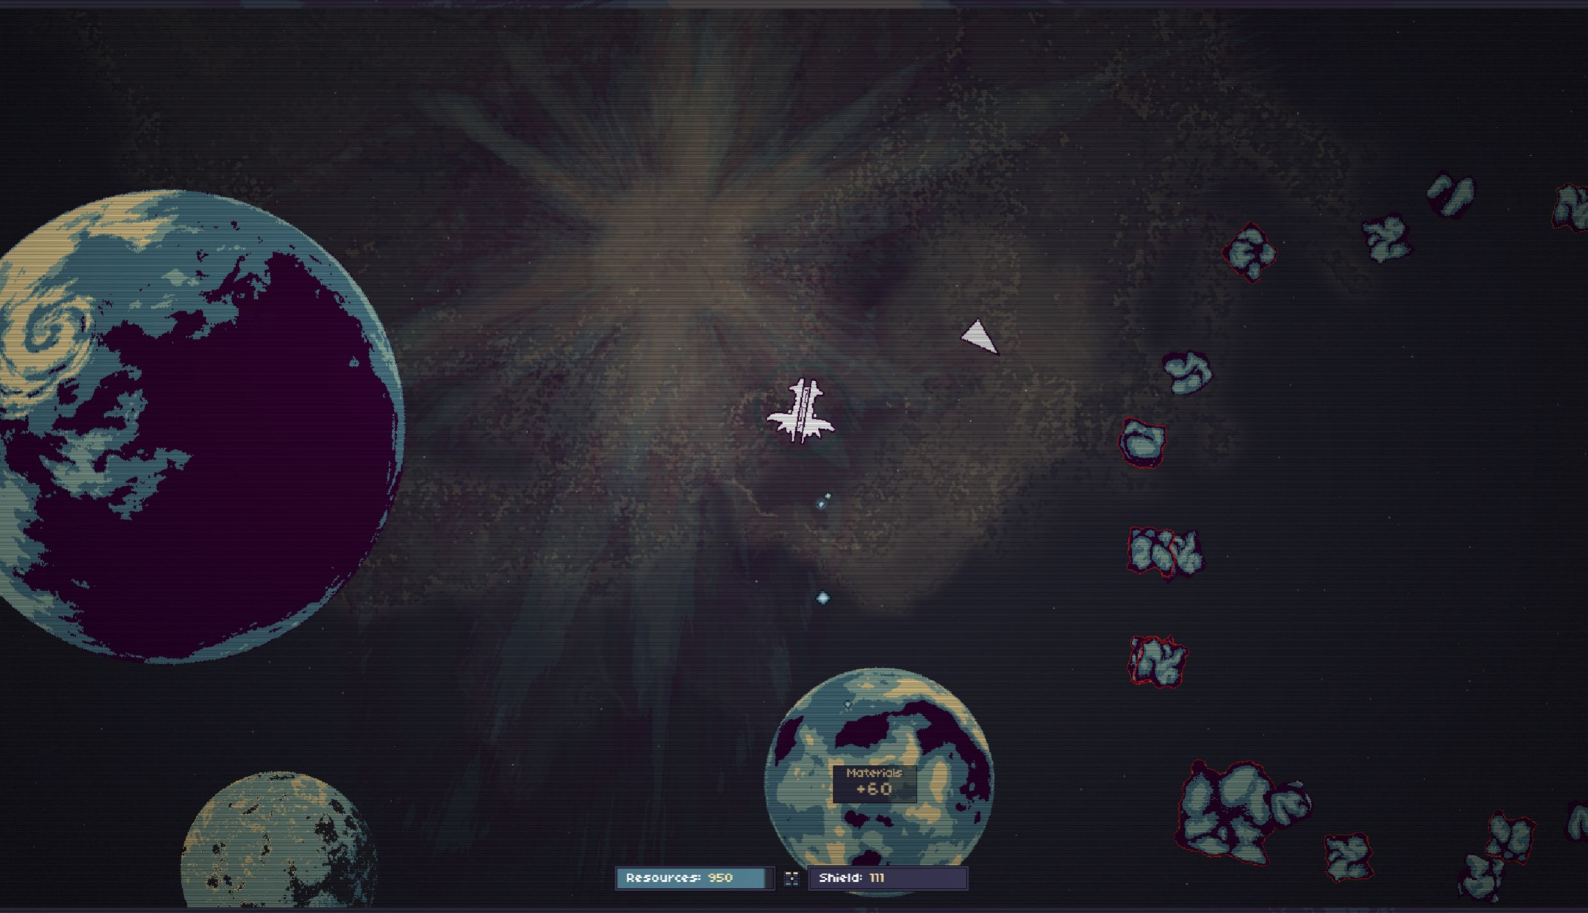
Platform: Windows and Mac
Store: Steam
Release Date: August 20, 2015
Price: 11.99 usd

Future plattforms:
Xbox One, iPad, WiiU
and Linux.

Available on Steam from August 20!



A poetic, roguelike space odyssey in a procedurally generated world.

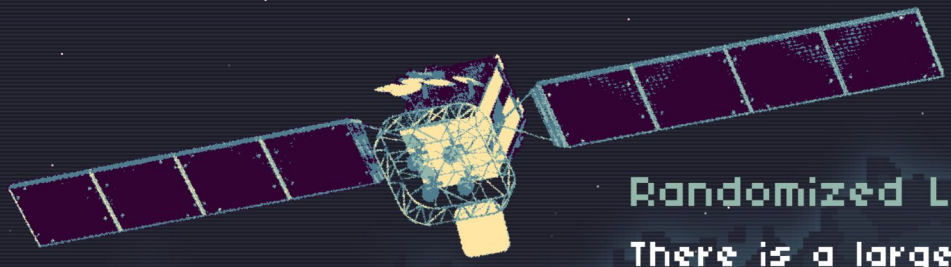
When home is no more...

Resources are sparse. The world is infinitive and unknown. The universe is lonely, open and unforgiving.

You're drifting, in a big, empty and silent space. Searching for a new home. You know a few coordinates to some random locations; but this is the only information you got.

RymdResa is a challenging and evolving space adventure, based on randomness, with RPG elements. Abstract poetry and art are expressed throughout a lonesome and calm journey in space.

Travel through a mysterious cosmos, deep and beyond. Discover the solitude of space! Customize your ship, explore and survive in the retro stylized world of RymdResa.



Ship Customization

There are 8 ships in RymdResa.
Every ship has in total 8 item slots, whereof 2 are unlockable.
You can find different styles, auras, engines and other improvements.

Randomized Loot

There is a large amount of different item types you can find to enhance your ship.
These are randomized.
Try to get legendary items!

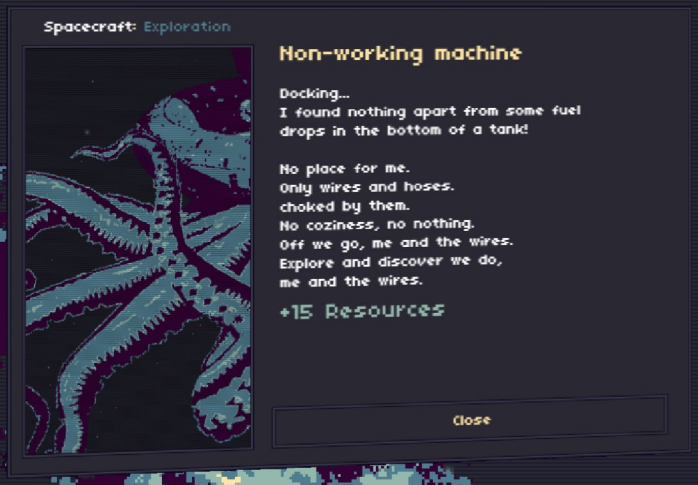
Procedural World

The world is infinitive and different every time you play, with over 300 different objects to discover and explore: like planets, stars and spaceships.

Solitude of space

The universe is lonely, open and unforgiving, but that doesn't mean it isn't peaceful. We have tried to create a place for relaxation and beauty.

Exploration - explore planets, galaxies, spacecraft, satellites and asteroids.



Dangers - Avoiding thesse are easier said then done

Original Soundtrack

Every ship has a custom soundtrack enhancing the world around it. Two musicians: Tom Croke and Pat Jacobs created the soundtrack with their vision of the game.v

3 Chapters

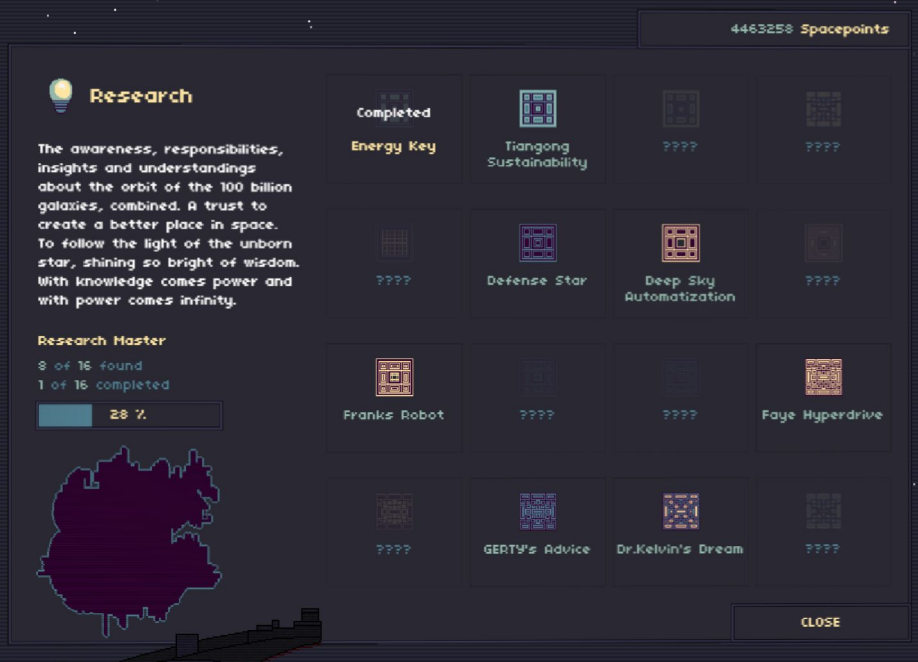
RymdResa is an evolving space adventure. Each chapter has unique gameplay and a unique narrative. Chapter 3 is set in a new universe!

Chapters - Three different main missions

Upgrades

Discover a set of several different upgrades, like researches and different worlds enhancements: why not for example unlock the shield as an item type or see moons in space?

Research and Legacy



Customize your bases

Voiced Story

A poetic voice log from the pilot describing a great loss, hirs thoughts and feelings. Abstract fragments discussing hirs past, present and future.

+800 SpacePoints

6 Years in Space

Sugar

(When I want the dark night,
encircling me,
to be the morning light):

I pour
Some sugar in the water.
To get rid of the funny taste.
And the disconnected feeling.

When I want to dream again.

To feel the sweetness of
a morning day.

Increase resources and consumable item bonuses.

« Reset »

Reset all your statpoints and skills.
Cost 25000 spacepoints.

Star Of The North

Select a skill:

Level 15

Level 20

Hyper Overchargers
Hyperspeed has a chance to overcharge increase speed & reduce travel time with 50%

« Unlock Skill »

Beautiful Art

Poetry, peace and art. Explore and enjoy a big set of visuals, crafted with RymdResa's art style: pixelart mixed with a posterized style combined with a strict color pallet.

Non Violent

We didn't want to create yet another space-shooter, with laser-beams and exploding aliens. In RymdResa the game play is peaceful, passive and relaxing.
