■■ Input ■■

■ Change Input

Here is how you change the input in Windows 10:
(NOTE! Resetting the input back to it's original state is not straight forward, but it is possible. See instructions further down).

1: Start the game, either from clicking "Play" in steam, or by opening the .exe file.
2: Hold down the Alt key at startup (Directly after you have started the game, before it has opened).
3: A dialogue will show up with the possibility to change resolution. There is also a tab called "Input".
4: Under the "Input" tab, you will be able to change input by following the instructions there.

■ Reset Input

If you have changed the input like stated above and want to reset it to the original input, this is how you do it:
(NOTE! Do not touch ANYTHING ELSE in the Registry Editor. This is done at your own risk.)

1: Open the Registry Editor by clicking the Start button and search for "regedit".
2: In the Registry Editor, go to "Computer\HKEY_CURRENT_USER\Software\Solvarg\The Lost Light of Sisu"
3: Delete the "The Lost Light of Sisu"-folder by right-clicking on it and select "Delete". NOTE: By doing this all of your saved option-settings will be reset.

■■ Credits ■■

■ Friends

I would like to say a big thank you for buying and playing The Lost Light of Sisu.
I hope you enjoy it.

I would also like to thank everyone that has supported me and tested the game through out development.
I am truly grateful.

■ Localization

German: René Rother
Latin America Spanish: Mario Carballo Zama
Spain Spanish: Andrea Sacchi
Portuguese: Manuel Correia
French: Simon Grall

■ Stugan - http://www.stugan.com/

A big thank you to everyone that runs and is involved in the game accelerator Stugan.

■ Audio - https://sonniss.com

Thank you to Soniss for the free GDC audio bundles.

■ Shader Forge - http://acegikmo.com/shaderforge/

Shader Forge has been hugely helpful in creating this game.

■ Unity - https://unity3d.com/

This game was possible to create thanks to Unity and their friendly indie developer user agreements.

■ Font - Poiret One

Thanks to creator Denis Masharov.
