

puzzle frame

Game Manual

Main screen

From the main screen you can take the following actions:

new photograph

 - Click on the photograph to select a new random photograph.

play

 - Starts the puzzle using the currently shown photograph.

gallery

 - Here you can view all the photographs and choose one to play.

difficulty

Toggle between difficulty levels using the difficulty button:

 - Difficulty level 1: puzzles are composed of 9 vertical pieces;

 - Difficulty level 2: puzzles are composed of 12 pieces (4 by 3);

 - Difficulty level 3: puzzles are composed of 20 pieces (5 by 4);

- Difficulty level 4: puzzles are composed of 42 pieces (7 by 6).

mode

Toggle between game modes using the mode button:

- Simple game mode: puzzles have one single side;

- Mirror game mode: puzzles have a mirror side and pieces may be flipped.

sound

Toggle mute on music and/or sound effects using the sound button:

- Music and sound effects active;

- Music muted, sound effects active;

- Music and sound effects muted.

exit game

- Exits the game.

Gallery

Explore all the available photographs and select one to play. Navigate by holding the mouse button and dragging horizontally or using the mouse scroll wheel.

- Click on any photograph to select it and proceed to main screen.

- Click on the back button to return to main screen with a random photograph selected.

Playing

The photograph is displayed up close before being shuffled.

- Click on the photograph to shuffle and start playing;

- Click on the back button to go back to main screen;

Once the puzzle is shuffled, you can:

- Move a piece by clicking on it and holding the mouse button, then moving it to the desired position;

- Flip a piece by clicking a single time on a piece without moving it;

- Click on back button to go back to main screen.

Once the puzzle is solved, it will automatically merge signaling it is complete.

Settings file location

The game settings file may be found in the following folder:

- windows: %userprofile%/documents/My Games/Puzzle Frame/settings.json
- linux: ~/.config/unity3d/Kynapsis/Puzzle Frame/settings.json

In this file, you can manually tweak some of the game settings.
