[A] Use Potion
[SPACE] Pause
[S]Map
[↑ ↓ ←→] Move

-Fixed Key
[ENTER] Submit
[ESC] Cancel

■How to play the game

Once you start the game and finish the tutorial, go into the weapon shop in the upper left corner of the village first to equip yourself.

At first, the only equipment you will have is armor, so I recommend purchasing a helm and shoes if they are sold. Once you have finished buying the equipment, head into the labyrinth through the exit above the village.

If you die in the labyrinth, you will not lose your experience and equipment. With repeated attempts, the player will grow and acquire more powerful equipment.

■ Village Facilities

① Entrance to the Labyrinth

This is the entrance to the labyrinth. You can get to the labyrinth from here

② Beastiary

You can see the list of materials that can be obtained when you defeat a monster or where it appears.

③ Weapons shop

You can buy and sell weapons and armor. The selection changes as you complete the floors of the labyrinth, so you may find a bargain if you visit often!

④ Blacksmith

You can strengthen your equipment. You need coins and materials to strengthen equipment. You can get materials by breaking ores in the dungeon or exchanging them for Mana in the mine.

⑤ Storage Box

You can put your equipment away and remove it

⑥ General Store

They sell empty medicine bottles that can hold wounds to restore your strength and large bags to increase the amount of equipment you can carry!

⑦ Island of Monsters

You can find or deposit a monster to join you. In order to find a companion, you will need some Mana. Buy a Magic Bottle at the general store first!

⑧ Mine

You can exchange the ore needed to strengthen your equipment for magical elements.

⑨Bar

You can create new characters and initiate a local Co-Op mode, and you can also use Steam's Remote Play Together feature to pseudo-play online Co-Op.

⑩Michibiki.

When you talk to him, you can replay the tutorial or change the game mode (game difficulty). Try talking to him when the difficulty is too high or too low.
