

The Benjamins Quick Start Guide

Overview

You are an entrepreneur in a new town trying to just make a buck. Your plan? To find beautiful girls and get them to work for you. Take care of their needs and train them to work in more profitable jobs. Keep them happy, and build your relationship with them to unlock more scenes. You need to build your street cred to recruit more girls. Remember every month rent is due so don't let your cash get too low, keep the girls working. One key point is to not let a girl work in a lower revenue job once you promote her to a higher paying one (you may lose money doing this). Most tasks require several requirements before the girl will be willing to do it. Also, the more skill the girl has in a task will open new scene levels. If you have read this far and do not want to go through all the work to play the game but want to unlock the fun stuff. The Wi-Fi icon on the phone has a hidden cheat mode. You will not be able to unlock any achievements once you click the icon it will max out yours and the girls' stats and put \$50K in your bank account. You'll still need to recruit and have the girls do the actions, but it will show all scenes available.

The Girls

Jewel – Curvy 19 year old.

Jewel will be the first girl you recruit. Focus on working as waitress and her looks (Hair/Nails & Makeup). You should be able to get her to be a bartender within a couple days (game time). Once she is bartending, then after maxing her current needs (Energy, Mood, Hunger) train her dance skills and continue to bring up her looks. You should be able to get her be a stripper in 5-6 game days. Keep her working every day to increase your cash. The respect (the Star) rating is important to recruit additional girls. You can slowly increase this by improving the girls' mood (Massages work well). When you get recruiting your third girl, usually Vega, you should be able to train as model (modeling) & date (sex). Also, focus on your relationship (Shopping, Dating).

Piper – Plain Jane

The second girl to recruit will be Piper (Respect = 50). Keep her working, and just like Jewel you can increase her looks to get her to Bartender.

Vega – Thin Ebony 21 year old

Increase your respect level to 100 to be able to recruit Vega. At this point you should be able to focus on looks and dance training to get her be a Stripper.

Amber – Hot 18 year old

Amber requires a respect level of 250. Her looks are already good, focus on Dance training to get her stripping.

Maria – Huge tit Latina

To recruit Maria you respect needs to be 300.

Angel – Fitness model

Angel has a gorgeous thin muscular body. You respect needs to be 500 or hire to recruit Angel.

Candy – Big tits

Candy requires a respect of 750 to be recruited.
