GAME PROCESS

The goal of the game is to move up the career ladder as an auditor.

The game provides action points (AP) - indicated in the upper right the corner of the screen with green marks - active OD and gray marks are not active. At work, each check requires 1 AP, work cannot be completed until all APs are consumed. If you decide to spend leisure at a time when the work has not yet been completed, then the parameter reputation will decrease. If the reputation parameter is low, the game will be over!

The game is controlled by buttons on the left side of the screen, they are grouped by purpose.

To check, find and click the "Audit" button and select "check in loan application", view all the organizations in the list. If any the organization seems suspicious, then feel free to check it. For this click on the "Revisions" button. For example, in medical organization, the number of medical personnel should be at least administrative.

The game has the following parameters: health, mood, prestige, reputation.

Health depends on lifestyle, regular exercise strengthens it, and a bad mood can undermine it. Watch this setting if it is too low, then the game is over. Health can be improved by contacting your doctor in the "Services" section. The mood depends on different factors, unsuccessful checks spoil the mood. The prestige grows as acquisition of various values. Reputation grows from successful checks and affects promotions.
