COACH BAGGY'S LESSONS
(Play Defensive!!!)

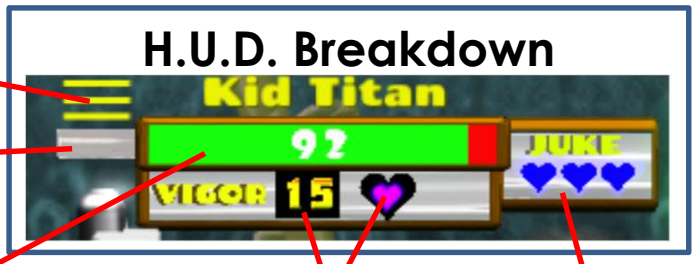

Don't tire yourself! Wait until your opponent misses and then punish them! Watch your Vigor meter and health. When your Vigor gets down to zero by blocking too much or missing too many punches you'll get tired Kid!!!

TIRED

Avoid getting tired Kid!

When you're tired you cannot punch or block!!!

Dodge or

Duck or

Then

Punish!!

(Look for pauses in animation to attack during their special moves!
By the way,... you can't punish jabs!!!)

The Basics

COMBOS

Alternating Side Combos
(Fast Release Combos)

HL ⟺ HR

2 HITS!

Tip:
Chain high punches with high punches or low punches with low punches to combo your opponent.
Never mix high and low punches mid combo!

After 3 hits, alternating combos rage faster and become more damaging!

Or

L ⟺ R

2 HITS!

Single Side Combos
(Slow Release Combos)

Tip:
This is the simplest way to combo. You can just hold down the punch buttons for repeated punching during single side combos.

Tip:
On stronger opponents no token is earned during combos. However you can earn tokens other ways.
Try to end your combos in a power punch for more damage.

Pro Tip:
To connect on 99% of your power punches make them block then immediately follow up with a power punch!!

Power Punch!!!

Make them block!

THEN

Then Power Punch!!

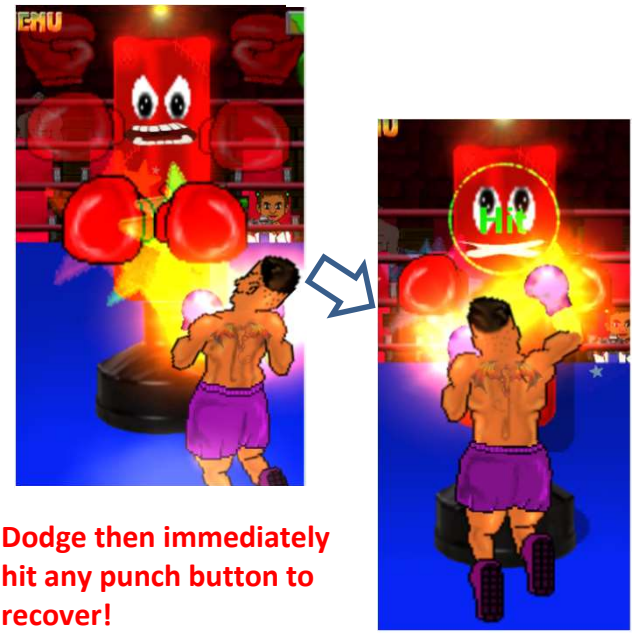

Power Punches are invincible, and can help you recover from your hit state.

Fighting Strategies

Each opponent has abilities and weaknesses that you most remember a master countering.

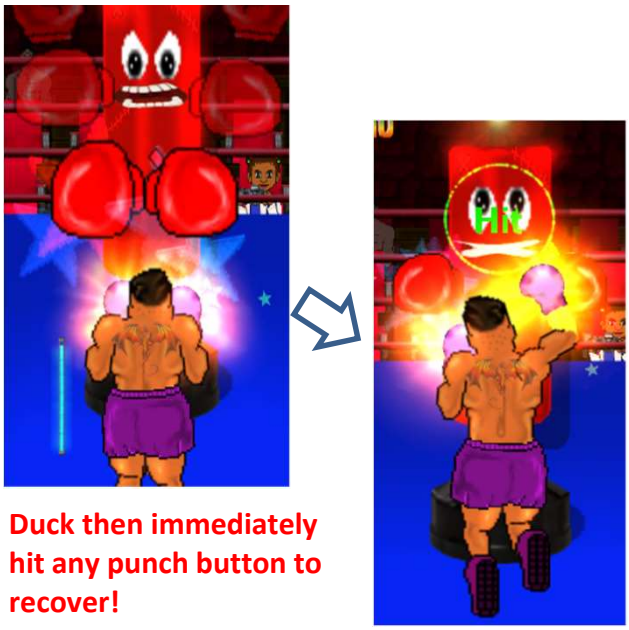

You also have abilities to master and weaknesses to avoid.

FAST ATTACK RECOVERY

Dodge then immediately hit any punch button to recover!

Or

Duck then immediately hit any punch button to recover!

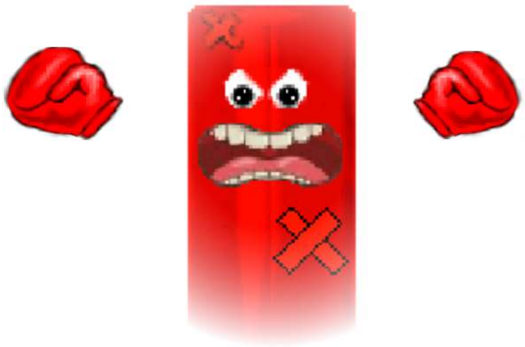

WEAKNESS

Too much blocking or too many blocked, missed punches will cause you to lose vigor. When vigor reaches zero you'll be tired, dizzy and vulnerable for 3~4 seconds!
