In VHS++ mode you can't skip ahead, just sit and watch it like an old VHS tape ^_^

In DVD++ mode you can move through the chapters like an old DVD, our special feature is way better than the old DVD's though ^_^

We'll continue to add Soundtracks as they are made. If you want to make one contact us @ imaginationrabbit.com

That's it! We hope you like M doll. Watch out for our next film
“Do you know the way to nowhere?” coming in 2022!

P.S. You might like our game that makes animations “Nightmare
Puppeteer” check it out on Steam!
