MODERN DAY GRAFFITI

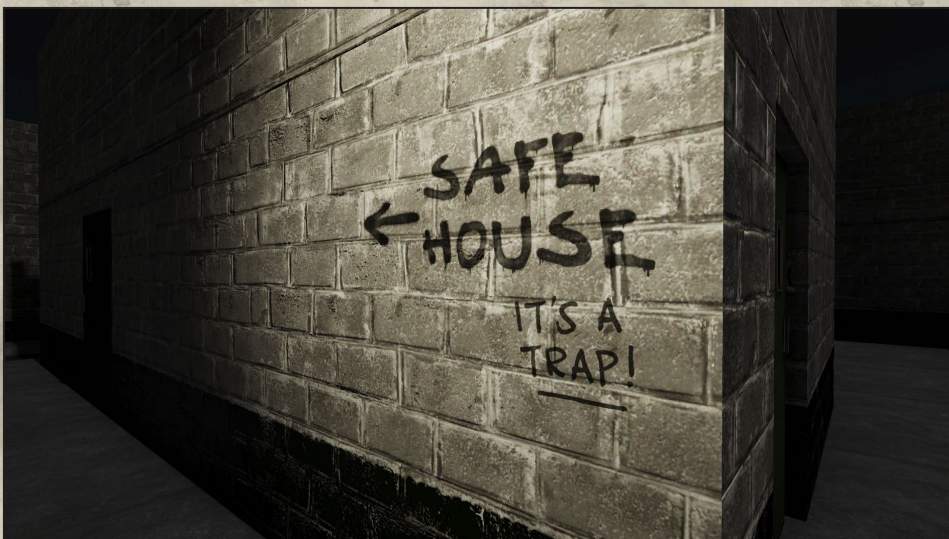

USER GUIDE

MODERN DAY ASSET PACK - GRAFFITI

Bring sterile levels to life by enhancing your game world with environmental storytelling. The graffiti assets in this pack can be used to illustrate your NPC's worst fears or their defiant hopes.

Direct your players to their next objective, warn them of dangerous locations, or lull them into a false sense of security before surprising them with a boss around the corner!

This asset pack contains hundreds of letters and numbers across five graffiti fonts that you can group together to form any words you like.

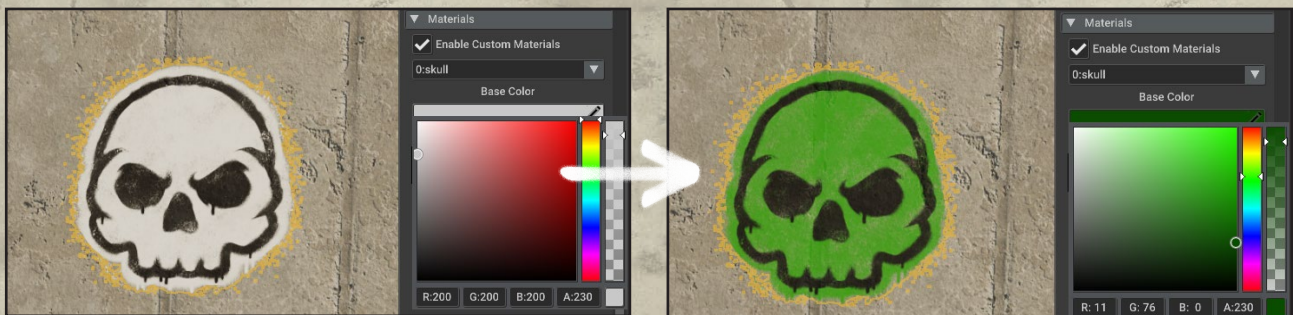

The pack also contains a variety of spray painted and stencil symbols to use individually, or combined with words to illustrate your environmental storytelling.

CHANGE THE COLORS

All of the assets can be changed to any color you like. Select the asset you want to change, then in the Materials tab click Base Color to bring up the Color picker. Choose the color and transparency to suit your style.

THE BLACK, IN SINGLE COLOR ASSETS, WILL CHANGE TO YOUR CHOSEN COLOR.

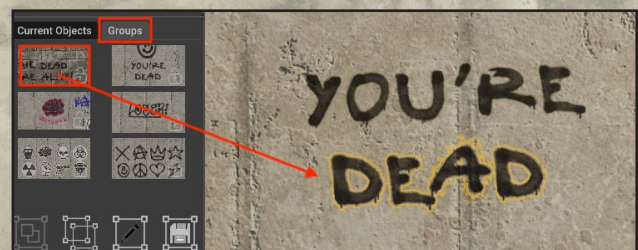

THE WHITE, IN TWO COLOR ASSETS, WILL CHANGE TO YOUR CHOSEN COLOR.

GROUP LETTERS TO RE-USE WORDS

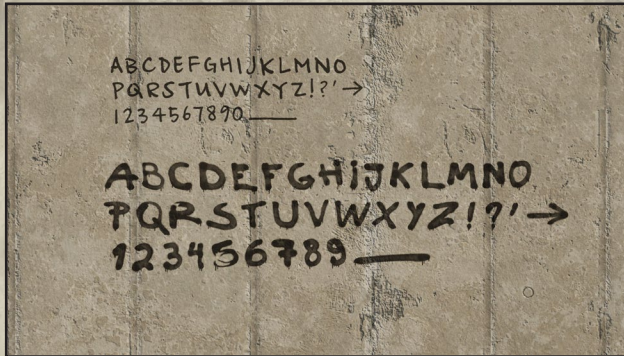

Select all the letters in the word you want to re-use. In the Current Objects tab, click the Group Objects button (see above).

To re-use the word in your level, click the Groups tab, then drag and drop the thumbnail of your grouped word into your level.

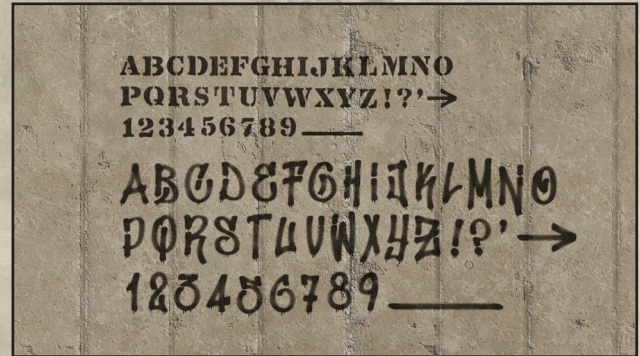

LIST OF ASSETS

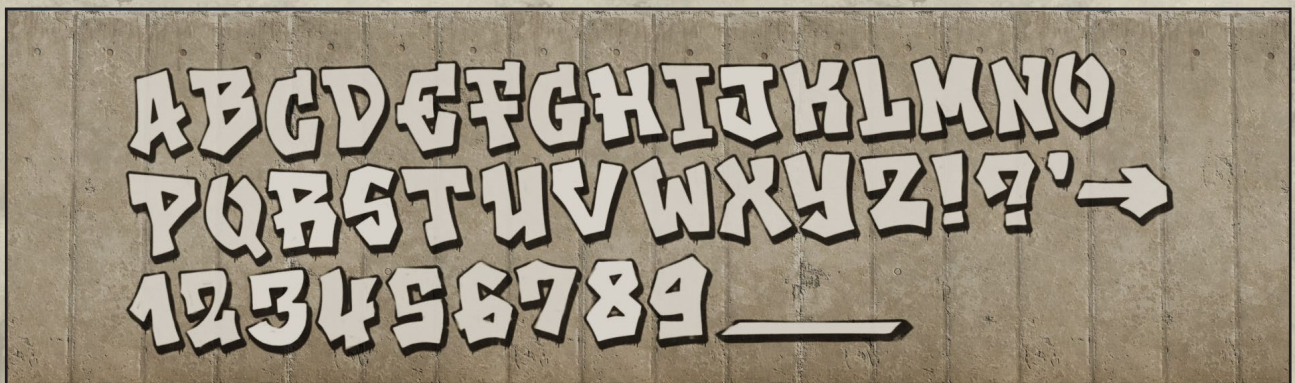

The assets comprise of single characters of five different fonts, and various symbols, all stylized to look like they've been spray painted or stenciled.
