▼Terms and conditions

Redistribution, analysis, modification, reproduction, reuse, etc. are prohibited.

All rights belong to 『the creator of this work, くえたろう (Kuetaro, hereinafter referred to as the author)』 .

※However, rights to the materials used in this work belongs to the copyright holders.

The author does not take any responsibility for any damage caused by using this work.

▼Game overview

『Creator of Another World』 is a roguelike RPG with a high degree of freedom. You can freely play without being tied to goals. You can go on adventures, conquer dungeons, interact with townfolks, marry, steal, farm, fish, blacksmith, forge, mix potions, build towns and more!

You can do whatever you want, such as befriending people you meet on your travels and going on adventures together, or challenging dungeons repeatedly to become the strongest.

In addition, the world map, towns, residents, adventurers, and dungeons are randomly generated for each game, giving you a fresh gaming experience every time.

▼Basics(Keyboard)

Arrow keys	Move
Enter,Z	Confirm
Esc,X	Cancel
C	Ranged attack
Shift	Diagonal movement, target switching, etc.
1~0	Register/execute shortcut

▼Gamepads

You can use a gamepad in this game.

Press the F1 key or the space key on the game title screen to configure the gamepad buttons.

Please refer to the in-game tutorial or help to find out which buttons do what.

▼How to take screenshots(Windows)

You can take a screenshot by pressing the 「F12」 .

The captured image will be saved in the 「screenshot」 folder in the format 「Year Month Date Hour Minute Second.png」 .

▼ Differences in specification between the Steam Deck version and the Windows version

The Steam Deck specification has the following differences from the Windows version

- The Steam version inputs text by touch input.
Only alphanumeric, and Japanese hiragana and katakana characters, can be entered.
- Original content cannot be registered by importing local files. It is only possible to select from uploaded files.
- Other minor differences exist.

▼ Steam Cloud

The following data will be recorded in the Steam Cloud:

- save data
- setup file
- Face graphics, walking graphics, equipment graphics, tone of voice, and adventurers registered as original content.

▼ Steam Input

For the Windows version, set Steam Input to "OFF".

For the Steam Deck version, set Steam Input to "ON".

▼ Demo version

The demo version limits play to the beginning of the game.

The demo version has the following restrictions,

please be aware:

- The world cannot be expanded (it can only be expanded in the full version).
- Quests cannot be requested at the Adventurer's Guild.
- Only some events can occur.
- Save data cannot be transferred from the demo version to the full version.
- Other minor restrictions exist.

▼If the game does not start properly

In particular, if you are using the antivirus software by Norton,
this product may be blocked and fail to start.

In that case, please try registering this work as an exception to your antivirus
software,

or temporarily disable your antivirus software.

Also, when unzipping this work, you may not be possible to unzip it correctly
depending on the unzipping software.

In that case, please try another archiver.

▼Contacts, author

Author くえたろう (Kuetaro)

HomePage <https://kuetaro.skr.jp/game1/>

▼ Registering original content

Pressing 'F2' or 'c' on the game title screen,
allows you to register adventurers, face graphics, etc.

You can also download and incorporate adventurers, face graphics, etc. created by other players,
from the screen.

▼About used materials

The rights to materials used in this work

belong to their respective rights holders.

Extraction, appropriation, or reproduction of the materials is prohibited.

In this work, I used the materials listed below.

※Honorifics omitted, in no particular order
