■ 2. How to Play

Start by selecting “New Game” on the title screen.

After the first conversation with the devil, you'll be able to explore the cave.

All of your lines are choice-based—there are no fixed responses. There are no affection points or game overs for "wrong" answers, so choose freely based on your playstyle!

Once you beat the devil's game, he'll propose a deal involving your soul. How you respond will determine the ending (and erotic scene) you unlock.

All endings can be replayed from the Memory Room, unlocked after your first ending. Bonus: You can unlock all endings at once, and access extra devil commentary too.
