

Welcome to the game tutorial!

The goal of the game is to try to defense your HOME PLANET from upcoming Asteroid Danger.

You start you game on your HOME PLANET.

In the top left corner you have the TIME till the next wave of asteroids.

Besides that you find here the Information about your FUEL.

You can buy it in the story of your HOME PLANET.

You get MONEY by colonizing the other Planets from Universe.

To colonize the planet you should have PROBES. One PROBES for one planet.

---

Now you are in the orbit of your HOME PLANET.

In the bottom right corner you see the ACTION BUTTON.

Use this button to open the planet's SHOP.

---

You are in planet's SHOP.

Here you will be able to buy your defense system units and some resources.

Without FUEL your spaceship won't move and you'll lose.

So don't forget to buy eat before your FUEL tank will get empty.

You need PROBES to colonize the planet.

Without new Planet you will not have enough resources to defense your HOME PLANET.

BASTION is a good and cheap way to defense your planets, but it don't offer you hundred percent confidence that you'll defeat all asteroids.

MAGNITAR offers your Planet the best protection. It benefits are limited only by time.

UTILIZATOR is a Spaceship which provides you with a good fire support. It will defense not only one planet but a huge space zone.

You can call it by hitting a special button at the bottom right corner. You are able to carry only one UTILIZATOR PROBE.

Use VOID to create a shadow planet which will attract asteroids.

It's also limited by time. So use it smart.

---

---

Now try to find the nearest Planet and colonize it.

To colonize planet you should move your spaceship to its orbit and hit ACTION BUTTON.

Use WASD to move.

---

Congratulation you have successfully colonized your first Planet.

Now you are able to open its own shop.

---

Use planets shops to upgrade your planet.

By buying an SHUTTLE you'll be able to get more money.

Buy MAGNITAR or BASTION to defend your planet from asteroids.

---

Now to finish the tutorial mission try to survive the upcoming asteroid wave.
