

How to play

Room

We recommend you find a room with at least 2 x 1.5 meters to play the game. And make sure there is nothing can block your arms when you waving controller around. Also make sure when you raise your arms, you will not hit the roof or droplight.

* The game requires play with stand.

Control

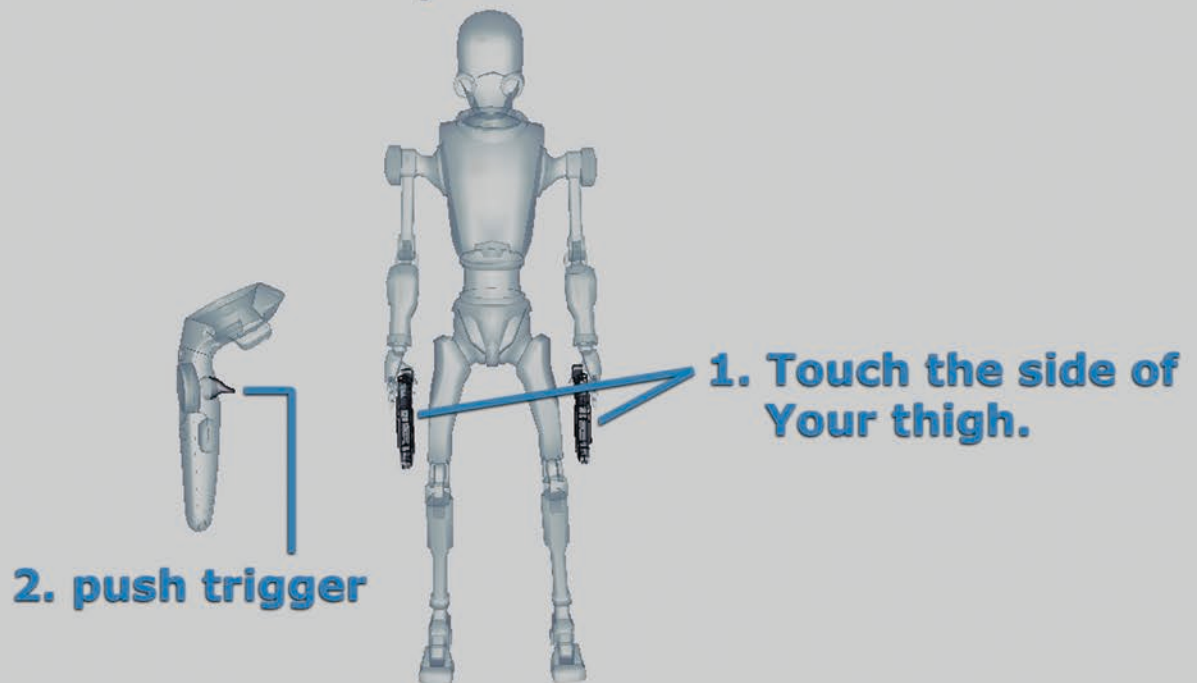

Slow motion tips:

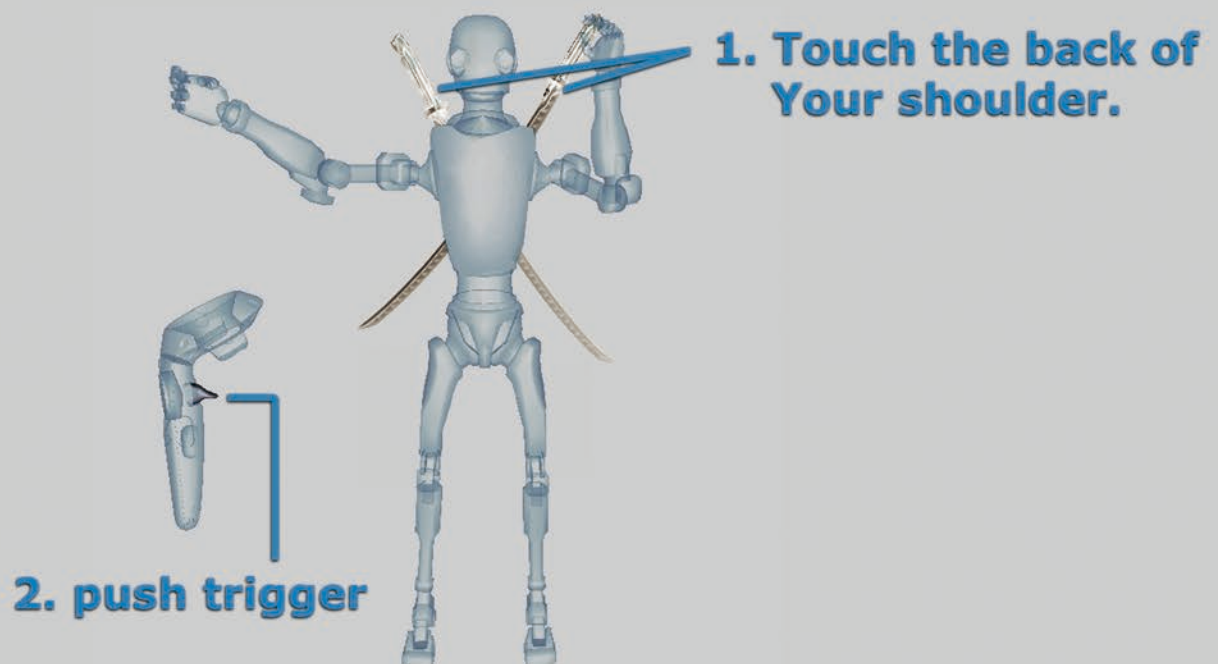

When in slow motion, the slower you move your hands the slower the time will be. So if you wave hands quickly, the slow motion will not give you much benefit. Also fire your gun will also make time speed up for a moment.

Switch Weapons

Switch/Reload Gun

Switch Sword

Battle Point

Each level is built with a bunch of battle points, You will Need to fight though one by one. After you kill all enemies in one battle point, the next choice will show up as the below symbol.

Raise your arm to aim the symbol and push trigger will lead you to that next battle point.
