VISP - PLAYING MANUAL

BUILDING

Grab a block with your trigger and drag to build a line of blocks.
(hold your controller into the the block you want to build from)

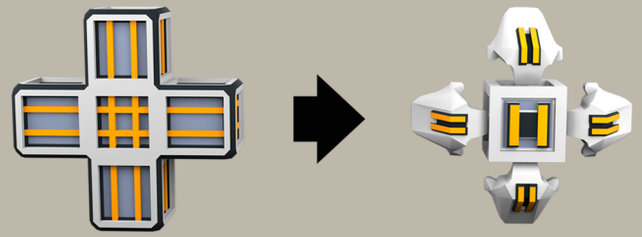

NAVIGATION

Hold the left trigger to rotate the station
(use the right trigger to stop the rotation).

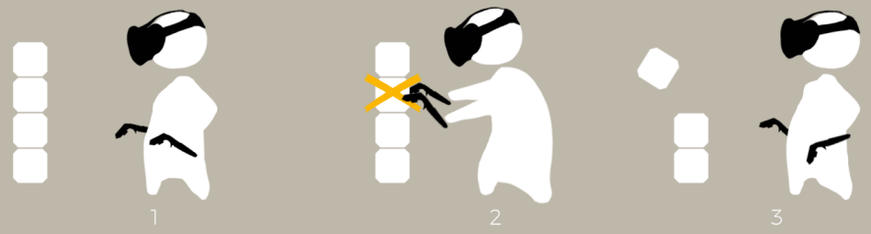

Hold both triggers to move the station up &
down (move it all up to restart the game).

PATTERN DETECTION

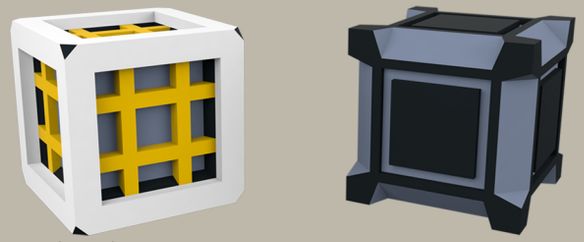

Form a "+"-pattern out of blocks to create a docking module
which receives resources from incoming carrier ships.

CONTROLLED DESTRUCTION

Hold both controller into one single block to destroy it.

BLOCK TYPES

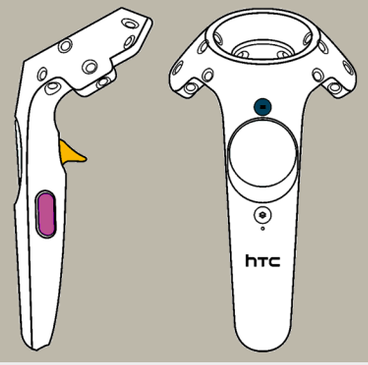

Use form blocks (left) to reach the monuments and create modules,
use wall blocks (right) to defend your station against enemies.

CONTROLS

build, move and rotate
the station
