How to active energy shields? (Only for Multiplayer version)

如何啟動能量護盾？(僅多人版本適用)

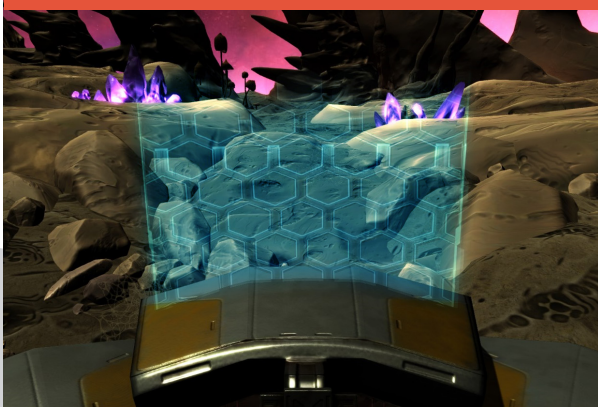

There are eight energy shields on the base. Every shield can be activate and has its own indicator light in color blue.

陣地中有八個護盾可以被啟動，各自有對應的啟動指示燈，此時為可啟動狀態，指示燈為藍色。

Moving to the front of indicator light, energy shield will activate after two seconds and indicator light will turn into yellow.

移動至指示燈前方，持續兩秒後即可啟動對應護盾，此時為已啟動狀態，指示燈變為黃色。

Energy shield could reduce limit damage from aliens, and needs to recharge after broken, then it could be reactive.

護盾只能抵擋一定程度的傷害，被擊破後會進入充能狀態，須等充能完成再能再次啟動。
